Health and Sales Contract

Sire _____ Date of Whelped _____
Dam _____ Sex _____
Color _____ Collar color _____

A puppy is to be sold for \$ _____. Payments to be made in full at the time of transaction date _____. Nonrefundable deposit of \$ _____.

The breeder guarantees that said puppy is in excellent health at the time of purchase. Breeder gives buyers a 72- hour general health guarantee. Due to nutrition being key to a healthy puppy, we will guarantee against life-threatening genetic health defects for 1 year, if the new owner continues to feed the current nutrition regimen the puppy is receiving; Pawtree formula is _____. If the new owner decides not to continue current nutrition, then the puppy will be genetically healthy for 90 days. Natural Breed Kennels ask for the food to be purchased under the following link <https://pawtree.com/naturalbreedkennels> to provide verification for the 3-year guarantee. Life-threatening genetic health defects is a condition that will cause death or serious impairment of vital function to the heart, lungs, or kidneys.

The breeder has done everything possible to produce healthy, sound puppies by breeding only healthy dogs, free from disease, and by raising puppies in the best way possible regarding diet, exercise, socialization, and veterinary care.

If a licensed veterinarian determines the said puppy to be unhealthy, at no fault of the purchaser within 72 hours after purchaser takes delivery of the puppy, the breeder shall be notified within 24 hours of diagnosis. Failure to do so confirms your satisfaction with the puppy. When notifying the breeder, the following information must be included; name, address, and phone number of the licensed veterinarian that diagnosed the puppy, written documentation, and any additional paperwork from the veterinarian visit. So, the breeder can have an examination from their veterinarian, the buyer must return the puppy within 48 hours of the diagnosis date. If the diagnosis is confirmed, the breeder will replace the puppy when one comes available up to one year from the date of sale. This guarantee does not cover parasites, parvo, corona, viral or bacterial infections, distemper, kennel cough, umbilical hernia, coccidia, or giardia. All our puppies have had at least one vaccination against viral illnesses and have received preventive treatment against parasites, coccidia, and giardia. Due to the highly contagious and rapid progression, we cannot be liable as it's very likely the puppy was exposed after our care.

Should a veterinarian determine said puppy to be damaged for any reason by fault of the purchaser, the puppy will be returned to the breeder with no replacement. Injuries induced after the sale, a change of heart, dislike of the puppy, or unable to potty train, is not covered. Only to the health of the puppy is our 3-year genetic guarantee valid. The breeder is not responsible for defects caused by the buyer's neglect, abuse, improper nutrition, mishandling, breeding, or any illegal activities.

The purchaser agrees to provide the puppy with a loving home, socialization, quality food, and proper veterinary care. The purchaser agrees to NEVER tie the puppy or cause the puppy to be in an unsafe environment. In addition, if the puppy is no longer wanted, the purchaser agrees to rehome the puppy and NEVER place the puppy in a shelter.

Although the puppy is well socialized, the breeder does not make any guarantee regarding temperament. The temperament of your puppy is based on the amount of time you give your dog, its development, and socialization. It's recommended that you enroll your dog in basic training around the age of 5 months.
